About the Position

The Master Trainer will be responsible for implementing field-level interventions under the women entrepreneurship and SHG strengthening project. This role focuses on mobilizing women, facilitating enterprise development trainings, coordinating with stakeholders, and ensuring access to livelihood opportunities, financial inclusion, and social security schemes.

Key Responsibilities

- Mobilize women entrepreneurs and support their onboarding into the entrepreneurship support program
- Design and deliver training modules on entrepreneurship and enterprise development for women entrepreneurs
- Customize training content based on enterprise type, local context, and participant needs
- Conduct classroom and field-based training sessions, workshops, and refresher programs
- Mentor and coach women entrepreneurs to strengthen business planning, operations, and managerial skills
- Support Project Associates in conducting need assessments and planning capacity-building interventions
- Develop training materials, tools, and simple guides in Gujarati for effective learning
- Evaluate training effectiveness through assessments, feedback, and field observations
- Provide technical inputs to improve enterprise viability, productivity, marketing, government convergence, credit linkages and sustainability
- Document training sessions, learning outcomes, and success stories for reporting purposes
- Coordinate with project teams and local partners to ensure effective implementation and alignment with program objectives
